

# Conservation Exploration

Draw the universal symbol used by zoos to identify threatened or endangered species on exhibit.

As you walk through the zoo, find five endangered or vulnerable animals.

---

---

---

In the S\_\_\_\_\_ S\_\_\_\_\_ P\_\_\_\_\_ programs, our zoo cooperates with zoos and aquariums throughout North America to manage threatened and endangered species.

Find five species managed by SSP programs as you walk through the zoo.

---

---

---

Name one reason the golden lion tamarin is endangered.

---

Many primates including the siamang and howler monkey depend on trees to survive. How are trees important to these animals?

---

---

Give two reasons wetlands are important.
